## WHAT SEVERNS & HOWARD CAN DO FOR YOU

### PLANNING AHEAD

No two persons' circumstances are exactly alike, so the process of making a Lifetime Plan is a very individualized and personal process. Preparing a Will or creating a joint bank account just like your neighbor's makes no more sense than taking your neighbor's medicines.

Building and properly equipping your Response Team by developing a comprehensive Lifetime Plan with expert advice will help assure that both you and your loved ones will be protected and able to respond when the unexpected happens. A well-developed plan, prior to the need for care, will also allow you to maximize your asset protection possibilities.

### IN CRISIS

When a loved one faces a health crisis, family members are often put under stresses concerning the quality, and the costs, of the care that they need. With help and guidance from one of our Elder Law Attorneys, you will get the assistance you need to quickly make the best decisions to ensure that all aspects of their care, moving forward are done accurately, and under the most well-informed circumstances. With our years of experience, we can help define the path ahead to ensure your loved one gets the best possible medical care while protecting their assets for their long term care needs.
